

Section 7

What Are the Graphic Standards for Using the MyPyramid Symbol?

The graphic standards have been written to make the correct application of the MyPyramid symbol as easy as possible. Active participation of a “community of users” – the media, educators, government agencies, nongovernmental organizations, health professionals, industry, and others – is important to the program’s success. We appreciate interest in the program and encourage use of the symbol frequently.

For complete graphic standards information, [click here](#).

High resolution files of MyPyramid graphic images are available to download from the MyPyramid.gov [graphics and resources website](#).
